

generator floor display

BAC-display customized many kinds floor display stands like the Generator floor display with the client's request. And we cooperate with many clients from many counties from all over the world. Hope we can help you about your brands display rack for your market. Any inquiries and problems please feel free to send emails to us and we will reply you soon.

This generator floor display is putted in the hardware store to display the westinghouse small generator. And we can improve this display rack into yours with the request of your company. This metal generator floor display stand has the metal tube , the tube frame wire mesh layers. This display only has the two shelves, Because the generator is big volume and heavy. So the display stand need to be very strong to hold more than 200KG each shelf. On the bottom. It should be have the adjust level too. The advertising logo just appears on the top. It is simple and clear to show your products. The display is steady structure because it used more thickness raw materials sheet for every part. This display can used at least 5 years more. The well designed structure of the display to make it possible folded packing and cheaper cost for logistics. The Main parameter information is as followed. Contact me if you have more question.
